WE ARE YOUR  
PURCHASING AGENTS  
IN CHINA!

 [global-linx.com](http://global-linx.com)

## Why us?

---

Our **purchasing agent service in China** provides direct access to reliable factories, eliminating all intermediaries, **saving costs**, and **ensuring the operation**; thus facilitating communication **between the consumer and the factory**.

# Strategic partner for:

## SMEs

Expanding the market network, achieving competitiveness in their sector.

## LARGE ENTERPRISES

We are specialists in sectors with high production volumes such as raw materials, semi-manufactured products, metals, chemical products, etc.

# Our services:

## **Product sourcing in China**

We find suppliers and products that meet your specific needs.

## **Screening and selection of certified and reliable manufacturers**

We evaluate and select factories with certifications and proven track records.

## **Price and terms optimization with your current suppliers**

We negotiate better prices and terms with your existing suppliers.

## **Cost-saving projects in supply purchasing**

We identify savings opportunities in your regular supply purchases.

## **Product customization and development**

We design and adapt products tailored to your technical requirements.

## **Hire your trusted Chinese team in Shenzhen and simplify your operations**

We build your local team to streamline processes and reduce operational risks.

# Our services:

## **Production follow-up, quality reports, and shipment inspection**

We supervise production, control quality, and verify shipments.

## **Consolidate merchandise and optimize your logistics through our warehouses in China**

We group your orders and coordinate shipments from our warehouses in China.

## **Safeguarding payments to manufacturers**

We act as intermediaries to ensure reliable and secure payments.

## **Legal protection in China: security in deliveries and quality**

We provide legal support to protect your deliveries, payments, and standards.

## **Financing scheme: maintain your stock and liquidity**

We help you finance purchases to sustain inventory without affecting cash flow.

# Organizational Structure

# Quality reports:

We supervise every stage of the manufacturing process with detailed reports that ensure compliance with the required standards.

**ALLINX**

### Inspection Report

**GENERAL INFORMATION**

Client:   
**Product:** Silicon metal 553   
**Inspection location:** Tianjin   
**Inspection date:** 2024-02-29   
**Your reference number:** N/A   
**PO number:**   
**Order quantity:** 25.00 MT   
**Qty ready for inspection (%):**   
**Reference sample available:** 25.00 MT

**INSPECTION RESULT**

**OVERALL RESULT** Pending   
Only the client has the final decision to Reject or Approve

| CRITERIA                           | RESULTS | REMARKS |
|------------------------------------|---------|---------|
| 1. Quantity                        | Confirm |         |
| 2. Production Status/specification | Confirm |         |
| 3. Packing and Packaging           | Confirm |         |
| 4. Marking                         | Confirm |         |
| 5. Container Loading               | Confirm |         |

**REMARKS**

N/A

**Actual Finding / Comments**

N/A

**Remarks**

N/A

-  Complete visual inspection of the equipment before shipment.
-  Detailed report with overall results, observations, and pending issues.
-  Record of defects and observations with photographic evidence.
-  Technical documentation control: manuals, programs, parts, and drawings.
-  On-site functional check: motors, dimensions, electrical connections.

# Logistics optimization:

We maximize space utilization and reduce logistics costs by efficiently consolidating shipments and packaging.

## Optimization example:

当前货柜 ^

货柜类型: 40HQ

货柜尺寸: 1203.2\*235.2\*269.8cm

货柜承重: 26600kg

货物总数: 23

货物体积: 57.66m<sup>3</sup>

剩余空间: 18.69m<sup>3</sup>

货物总重: 0kg

剩余承重: 26600kg

空间利用率 75.53%  
重量利用率 0%

- **Smart consolidation**  
391 items organized into just 23 pallets, optimizing volume and weight.
- **Container utilization**  
Total load fitted into 1 40HQ container, minimizing multiple shipments.
- **Volume reduction**  
Precise distribution of items on pallets to reduce total CBM to 57.66 m<sup>3</sup>.
- **Product diversity**  
Grouping of heterogeneous materials (blankets, rotors, strips, and equipment) into a single shipment.
- **Efficient packaging**  
Use of standard pallets and custom-designed wooden crates to reduce empty space.

# Project tracking

Real-time monitoring so you always know the status of your order.
